**CURE HATE.**

**STOP AIDS.**

**March on Washington for Lesbian and Gay Lives – April 25, 1993**

.....

**The criminal neglect of people with AIDS. The criminal assault on the human rights and dignity of gays and lesbians. Both are fueled by ignorance and intolerance. It's time to stop the lies. It's time to cure the hate. And long past time to stop the disease that threatens us all. On April 25, show America who we really are. On the streets of Washington, march for your right to live and love.**
